Reasons for Allowance

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Referring to claim 1, the prior art does not teach or reasonably suggest a volatile memory distributed in one or more of said processing nodes providing data and instruction storage in a shared memory address space accessible to multiple of said plurality of processing nodes through communication via said high speed system interconnect and cache coherency circuitry snooping communication on the high speed system interconnect topology to maintain cache coherency in said distributed volatile memory in combination with the remaining limitations of the claim.

Referring to claim 9, the prior art does not teach or reasonably suggest a high speed, high bandwidth interconnection topology connecting the plurality of processing nodes within the computer system and conveying, between the plurality of processing nodes, requests of processing units for data residing within a shared memory distributed among said plurality of processing nodes and associated cache coherency communication in combination with the remaining limitations of the claim.

Referring to claim 14, the prior art does not teach or reasonably suggest utilizing communication on the high speed interconnect topology, accessing distributed volatile memory in one or more of said processing nodes that provides data and instruction storage in a shared memory address space accessible to multiple of said plurality of processing nodes and utilizing communication on the high speed interconnect topology,

maintaining cache coherency within said distributed volatile memory in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C Maskulinski whose telephone number is (703) 308-6674. After October 15, 2004, the examiner can be reached at telephone number: (571) 272-3649. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert W Beausoliel can be reached on (703) 305-9713. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
